PROFESSIONAL EXPERIENCE

Senior Front-End UX Engineer / E-Commerce Front-End Developer | Red7 Systems | July 2023 - Present

- Designed and developed front-end UX/UI experiences across e-commerce, SaaS, and marketing websites, owning work from wireframes and visual direction through production implementation.
- Built and maintained customer-facing websites using React, Next.js, Shopify Hydrogen, WordPress, PHP, JavaScript, HTML, and CSS.
- Led UX/UI design, wireframing, prototyping, responsive layouts, visual cleanup, and reusable UI components for product-focused web experiences.
- Designed and built front-end experiences for Cabana Filters, StudioPlayer, My Logo Mat, My Metal Business Cards, My Plastic Business Cards, Quick Metal Cards, and My Wood Business Cards.
- Launched 1 Shopify Hydrogen storefront and 3 React/Next.js applications supporting direct-to-consumer and B2B brands.
- Supported digital experiences across 5+ e-commerce brands, 100+ product offerings, custom product configurations, and approximately 850,000+ annual website visits.
- Created e-commerce flows, product presentation pages, landing pages, comparison sections, branded visuals, customer education content, and conversion-focused marketing assets.
- Designed and produced 389+ Amazon listing assets, including infographics, comparison graphics, lifestyle imagery, sizing diagrams, and product marketing visuals.
- Used AI-assisted workflows to speed up UX/UI ideation, wireframe planning, frontend debugging, SEO content support, QA checklists, and marketing asset direction while maintaining brand consistency and production quality.
- Collaborated with leadership, developers, marketing, and operations in a 5-person cross-functional team to deliver web experiences from concept through launch.

UX/UI Front-End Developer | Monnit Software | 2022 - 2023

- Generated \$65,000 in client revenue through custom software design and implementation.
- Redesigned software onboarding, homepage, and setup experiences using research, testing, and data-driven decisions.
- Created high-fidelity mockups, user flows, prototypes, and front-end experiences.
- Built software interfaces using HTML, CSS, and JavaScript.
- Produced multimedia content and user-centered software experiences for software and marketing initiatives.

SELECTED PROJECTS

Cabana Filters - Shopify E-Commerce Experience - cabanafilters.com

Designed and built e-commerce front-end experiences for a Shopify-based air filter brand, including product education sections, comparison flows, branded visuals, landing page layouts, and customer-focused UX improvements.

StudioPlayer - SaaS / Digital Signage Website - studioplayer.com

Designed and developed front-end website experiences for a digital signage software brand, focusing on clear product communication, modern UI structure, responsive layouts, and polished product presentation.

My Logo Mat - Custom Product E-Commerce Site - mylogomat.com

Designed and developed e-commerce front-end experiences for a custom product brand, including product-focused layouts, visual hierarchy, customer education, and conversion-oriented page structure.

Business Card E-Commerce Brands - Multi-Brand Front-End System

Designed and maintained front-end experiences across custom metal, plastic, and wood business card brands, supporting custom product configuration, e-commerce presentation, and brand-specific UX/UI.

Concrete Connections NWA - Independent Website Project - concreteconnectionsna.com

Designed and built a service-business website from UX/UI direction through front-end implementation, creating a clean web presence for an artificial rockwork and concrete sculpting business.

ADDITIONAL EXPERIENCE

UX/UI Designer | Eufaula Properties | 2018 - 2019

- Designed website experiences, generated leads through marketing initiatives, and created wireframes and prototypes for testing and development.

Art Director | Cemrock Landscapes | 2015 - 2020

- Increased company profits by \$1.2M through process improvements, managed a team of artists, and executed large-scale architectural design projects.
